INDIANA NUMBER PORTABILITY TASK FORCE

EX PARTE OR LATE FILED

RECEIVED

CAUSE NUMBER 39983

OCTOBER 7, 1996

JAN 13 1997

DOCKET FILE COPY ORIGINAL

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF SECRETARY**I. INTRODUCTION**

The third meeting of the Indiana Number Portability Task force was held October 7, 1996 at 9:30 a.m. at the Commission's Office in Indianapolis. Terry Appenzeller from Ameritech chaired the meeting.

II. MEETING ATTENDEES

A list of the meeting attendees is attached.

III. FOLLOW UP FROM LAST MEETING

At the August 16, 1996 meeting a schedule had been agreed to for developing an implementation plan. Based on this schedule, the new entrants were to identify to an independent consultant, the exchanges that they want to enter by September 19, 1996. (Letter from Stan Sallier, dated September 4, 1996.)

For a variety of reasons only one Competing LEC (AT&T) had submitted it's list of Exchanges as of this meeting. As this effort is critical for determining the cost of implementing LNP for the State of Indiana as requested by the IURC on November 8, 1996, the task force agreed to:

1. establish a revised schedule
2. submit a preliminary progress report to the IURC on November 8, 1996
3. request an extension for the cost estimate due to the IURC. The requested date would be January 8, 1997.

The following revised schedule was agreed to:

10/21/96: New entrants to identify by MSA, exchanges they want to enter. These lists

are to be sent to Brad Behounek, an independent third party consultant, at:

Brad Behounek

473 Broadview Avenue

Highland Park, IL, 60035

Telephone: 312.301.2723

CAUSE NUMBER 39983

October 7, 1996

III. FOLLOW UP FROM LAST MEETING (CONTINUED)

10/28/96

Brad is to compile a master list of Exchanges for each MSA, by combining requests from all Competitive LECs. The requesting CLEC's name will **NOT** be identified. Brad will provide this list to the IURC and incumbents on this date.

11/11/96

The incumbents, Ameritech, GTE, Sprint and any independents will compile a report with their offices on the master list and the schedule for providing Number Portability.

Main Report Extension

Request:

The Task Force unanimously voted to have the two co-chairs (Terry Appenzeller, Ameritech and Judy Evans, AT&T) sign the extension request on behalf of the Workshop.

Report Authors:

The following companies agreed to author the reports (preliminary progress report and main report, including a cost estimate).

Ameritech

GTE

Sprint

Smithville

AT&T

MFS

Preliminary Report

Schedule:

The first draft is due on October 25, 1996. Comments and Feedback is due November 1, 1996. Submit the Preliminary Report to IURC.

IV. NEW ISSUES

NANC: Terry Appenzeller reported on the first NANC meeting October 1, 1996.

NANC is forming two (2) task forces.

The first NANC task force will counsel the FCC on how to move Number Administration from Bellcore to a neutral third party. The Number Administration Task Force will have it's first meeting on November 7, 1996. It is scheduled to complete it's work by January 1, 1999.

The second NANC Task Force will work on LNP Database Administration. This task force will look at issues such as "Standardization of Interfaces" and "Regionalization of State Efforts". The LNP Task Force is scheduled to complete it's work by May 1, 1997.

INDIANA NUMBER PORTABILITY TASK FORCE

CAUSE NUMBER 39983

October 7, 1996

IV. New Issues (continued)

NPAC/LLC: Roger Marshall presented a report on the Illinois NPAC selection of

Lockheed, as the vendor and the formation of the Limited Liability Corporation (LLC). The responses to some of the questions are outlined below.

A Service Provider does not have to be an LLC member to use the NPAC. Lockheed will provide its services to all users; LLC members and non-members on the same terms.

The purpose of the LLC is to manage the relationship with the Vendor and negotiate the Master Contract. Each Service Provider/User must sign a separate agreement with Lockheed.

The LLC will be regionalized. Each member will only pay/join once for the whole region instead of signing up for each individual state.

The LLC will ask Lockheed to base cost allocation on any directives forthcoming from the FCC and/or State Commissions.

Any Indiana workshop participant interested in joining the LLC should contact Roger Marshall, Ameritech, or Daniel Noorani, AT&T. (See attached Attendee List)

V. Next Meeting

The next meeting has been scheduled for November 8, 1996 at 10:30 a.m. in the Commission's Law Library.

The following Illinois Workshop committees will make presentations at that meeting:

1. Rating and Billing

2. Operations
